Ausgabe: 04/15

elumeg – Lamp connection cables

Construction

- Conductor : Stranded E-Copper, bare or tinned
- Cross section : 0,50 ... 6,0 mm²
- Core insulation : PVC (other plastic insulations are possible)
- Sheath : PVC (other plastic insulations are possible)
A delivery without the sheath is possible too (only twisted cores).
- Textile braid : Polyester yarn
- Standard colors : White red, black, blue, yellow, green, brown, violet, grey, orange
Many other colors are deliverable, neon colors and combinations of this colors.

Thermal properties

Temperature range : - 10 ... 70°C (PVC)

Electrical properties

Operating voltage : dependent on the type of the cable
